

Expressionism - **“WOMAN WITH BLACK GLOVE”**

Artist: *Albert Gleizes*

In French, *Woman with Black Glove* is *Femme au gant noir* or *Femme Assise*. It is a painting by French artist, theorist, and writer Albert Gleizes. It consists of experimental style that transpired during the second synthetic phase of Cubism, called *Crystal Cubism*. I chose this artwork because of its dialogue emerging between the limits of the medium of painting and the fullness of space.
